

E-Bass

Figure 1 is a schematic representation of the four-step procedure for the identification of the T, A, and B components of the TAA. The diagram consists of a horizontal timeline with four numbered steps. Step 1: T, A, and B components are identified. Step 2: T component is identified. Step 3: A component is identified. Step 4: B component is identified. A vertical line at the end of the timeline is labeled 14.
